

Seaside Goldenrod

Solidago sempervirens

Adapted to coastal environments including dunes and edges of salt marshes, it can tolerate dry conditions and salt spray. The flowers are an important energy source for monarch butterflies in their fall migration.

Bloom Season:	Late Summer - Mid Fall
Flower Colors:	Yellow
Soil Tolerance:	Average, Sandy, Dry, Moist, Well drained
Height: 2-6 feet	Spread: 2-3 feet
PERENNIAL
