

Gray Alder, Speckled Alder

Alnus incana

Best for moist areas of the landscape. Tolerates streambanks and pond margins. Can grow in heavy clay and nutritionally poor soils. Catkins in spring are insignificant. The bark is thin, smooth, and green-gray, grayish-brown, or reddish-brown. This tree is a nitrogen fixer.

Bloom Season: Early Spring - Mid Spring

Flower Colors:

Soil Tolerance: Average, Clay, Moist, Poorly drained

Height: 20-35 feet **Spread:** 20-35 feet

PERENNIAL
