

Common Evening-primrose

Oenothera biennis

Super easy to grow and tolerant of most conditions. Bright yellow flowers open at dusk and close by noon, hence the common name. While each plant will only live 2 years, they will readily self-seed to create clusters of plants in successive years.

Bloom Season:	Mid Summer - Early Fall
Flower Colors:	Yellow
Soil Tolerance:	Average, Sandy, Dry, Well drained
Height: 2-6 feet	Spread: 2-3 feet
BI-ANNUAL
