

# Blue Vervain

## *Verbena hastata*

Forms clumps of stiff upright stems bearing flowers in a candelabra shape with a long bloom season. Pinch the tops to encourage branching and a bushier growth habit. Spreads slowly through roots and self-seeding. Use in moist sites such as around ponds and in rain gardens.

<b>Bloom Season:</b>	Late Spring - Late Summer
<b>Flower Colors:</b>	Blue, Purple
<b>Soil Tolerance:</b>	Average, Clay, Sandy, Moist, Poorly drained
<b>Height:</b> 2-5 feet	<b>Spread:</b> 1-2.5 feet

**PERENNIAL**
