

Eastern Red Cedar

Juniperus virginiana

These evergreen trees are very adaptable and can tolerate heat, cold, dry, wet, salt and windy conditions. The scale-like needles are attractive in all seasons. In late summer and fall, female junipers have blue-green berry-like fruits, actually modified cones, that attract birds.

Bloom Season: Late Winter - Early Spring
Flower Colors: White, Yellow
Soil Tolerance: Average, Clay, Sandy, Dry, Moist, Well drained
Height: 40-50 feet **Spread:** 8-20 feet

PERENNIAL
