

## Marsh St. John's-wort

### *Hypericum virginicum*

One of the few St. John's-worts that have purple flowers, and one of our few native St. John's-worts. Can be found in bogs, swamps, and wet meadows. Good for wetter, shady garden areas.

<b>Bloom Season:</b>	Mid Summer - Mid Fall
<b>Flower Colors:</b>	Pink
<b>Soil Tolerance:</b>	Sandy, Moist, Poorly drained
<b>Height:</b> 1-2 feet	<b>Spread:</b> 1 foot

**PERENNIAL**
