

Woolgrass

Scirpus cyperinus

Also known as Cottongrass Bulrush or "Teddy-bear paws." This is a densely-tufted, clumping rush that can be found in our wetlands. Many brown, woolly bristles surround its nutlets giving a fuzzy appearance. Good for moist gardens and alongside ponds. Woolgrass is the host plant for the Dion Skipper butterfly and provides food for waterfowl.

Bloom Season: Mid Summer - Mid Fall
Flower Colors: Brown, Green
Soil Tolerance: Moist, Poorly drained
Height: 3-6 feet **Spread:** 1-2 feet

PERENNIAL
