

## **Slender Golden Top**

## Euthamia caroliniana

Attractive soft yellow flowers with a long bloom season make this a desirable garden addition. The grass-like leaves give the plant a fine texture. May spread aggressively. Considered to be a pollinator magnet. Tolerant of most soils except dry ones, its native habitat is moist to wet areas.

**Bloom Season:** Mid Summer - Late Fall

Flower Colors: Yellow

Average, Clay, Sandy, Moist, Poorly drained **Soil Tolerance:** 

Height: 1-3 feet Spread: 1-2 feet

**PERENNIAL**
